## Benton's Liniment.

Which has been used in Carson for over twenty-five years, has saved many an ache and pain to those who know of it. It is really intended for horses but works with the same magical effect on the human. It is a powerful remedy and for rheumatism is the king of the world. Aches knocked out in short order. No horseman should be without a bottle. n6tf

## ALL SORTS.

Catfish are biting at Washoe.

Frank Golden is back from Eastern Nevada.

Major Ford went below last evening to take a short vacation.

A new switch is being put in the sewer at the postoffice corner.

E. B. Rail went below last evening to lay in his holiday stock.

The Millich trial is drawing large crowds in the Genoa court room.

The money in the State vault was counted yesterday. It was all there.

J. K. Carpenter is still busy with the sewers in the North end of town.

Failures seem to be in vogue all over the United States just about now.

The next National Republican Convention will be at Minneapolis, Minn.

The Empire of Russia sent two representatives to the Denver silver Convention.

All the hotels and restaurants are getting ready for a large, broad-gauge Thanksgiving feed.

This weather seems to have been regularly engaged to hang around Carson all the time.

The Arlington is getting a beautiful Thanksgiving menu printed. It will be a great spread.

The mince meat of the coming Thanksgiving pie will have more booze in than last year.

The gripe is starting its rounds again, and people in the old world are beginning to die with it.

Prairie fires are causing considerable damage in the Indian lands located near Dennison, Texas.

The weather sharps now insist that this beautiful gilt edged weather will last until the moon changes.

Parties in Reno are arranging to build an electric railway from Reno to Virginia city with a branch line to Carson.

An anonymous letter fiend has broken out in Virginia and if detected will get the heaviest coat of tar and feathers ever heard of.

The Supreme Court of Cal. has decided that the World's Fair appropriation of \$350,000 is valid. Our Supreme Court has no such case to pass upon.

The Capital Minstrels now call themselves the Pot-pourri Club and will next play in Virginia. If they will let one man boss the company they will succeed.

This is how the Independent puts a weather item: A "greasy" sky, which is a dull, dirty gray, resembling lead smeared with a greased cloth, is ominous of bad weather.

Pete Millich's trial on a charge of cattle stealing began in Genoa Monday. Wm. Woodburn appears for the defense. Public opinion is very much divided in Douglas regarding the merits of the case.

The only pugilists who really seem to be trying to fight some one, and who are always ready to meet an antagonist in the ring, are Peter Jackson and Jack Dempsey. The others are merely traveling theatrical people.

A company in Wyoming proposes to tap the North Platt river in Natrona county and reclaim about 250,000 acres of land by building a main canal 150 miles in length, 8 feet in depth, and 100 feet in width at the top. It will cost \$2,000,000.

Germany will spend \$25,000,000 in supplying her army with a new field gun. It is lighter and more rapid in fire than the present piece.

One of our army officers in a recent paper criticized the new United States field gun for being lighter than those of European Powers. Apparently we are ahead in the race. Especially would a lighter gun be useful in the United States, where the roads and country are rougher than in Europe.

## Cider.

Doc, Benton has leased several orchards and is concentrating his attention to the production of genuine apple cider fit for table use or mince pies. It is the real article and can be ordered at his livery stable. o23tf

## Rupture Cured

Without pain, operation or detention from business, by Dr. Freeman & Tibbits, at Arlington Hotel, Carson December 1st. One day only. n21td

## THE DENVER CONVENTION.

Silver Echoes From the Rocky Mountain News.

The Rocky Mountain News of the 19th, contains the following silver paragraph in connection with its report of the big convention:

"Upon this platform we can stand and upon this platform we can win," is the stirring assertion of Senator Stewart in his advocacy of free and unlimited silver.

"Whence does this offer of free coinage of the American product come?" asks Senator Stewart. He gave the proper answer—from the gold trust of London. Are American miners for America or for London?

"The silver men of the South and of the Mississippi Valley advocate the restoration of silver to the place it occupied before it was clandestinely stricken down," was one of Senator Stewart's ringing sentences, and the miners of Colorado and her sister States and territories demand the same.

"Let the voice of this congress go forth clear and unmistakably in favor of the free and unlimited coinage of silver and great encouragement will be given to the advocates of honest money," was one of Senator Stewart's expressions which was cheered to the echo by the mining congress.

Senator Stewart places the center of the gold trust in England. London financiers issue their orders to New York bankers of the country, who all obey the foreign mandate. Is it not time that the miners of the Rocky Mountains issued a new declaration of independence and declared for the free and unlimited coinage of silver?

## The Fox Suit.

A San Francisco dispatch says that Alvinza Hayward and W. S. Hobart who are largely interested both in Hale & Norcross and the Nevada mine, were examined Monday. From Mr. Hayward the fact was elicited that the tailings and slimes of the Hale & Norcross were worked over by the Nevada Milling Company for the benefit of the latter corporation. This is the plan, Fox alleges, by which the fraud was accomplished. Owing to the sickness of one of defendant's attorneys, Judge Hubbard granted a continuance until the next day, Tuesday, directing that the books of the Nevada mill should be produced at that time.

## Forgot Something.

We have received the following from Aurora:

ED. APPEAL—I like the way the APPEAL speaks out and has no strings on it. Please send me the paper for one year.

JOHN WILKINS.

The above is quite flattering to the APPEAL but Mr. Wilkins is not apt to get this paper until he sends a check for \$8.00.

## Lyon's Improvement.

The Lyon county Times says: J. H. Rae has had men at work this week tearing down the building of the Con. Virginia concentrating works in Virginia, and hauling the lumber to this place, where it will be used for the mill building to operate in connection with the dredge.

## French Tansy Wafer.

These wafers are for the relief and cure of painful and irregular menses, and will remove all obstruction, no matter what the cause, and are sure and safe every time. Manufactured by Emerson Drug Co., San Jose, Cal., and on sale only by A. E. Harris, City Drug Store. oc28ly

Jim Wiggins proposes to sustain his reputation tomorrow night as an entertainer and provider of the first degree. There will doubtless be a big crowd at the masquerade in his hall at Empire Thanksgiving night, and all who attend will have more than the quantity of enjoyment generally allotted to individuals for the low rate of admission. The turkey, chicken and duck shoot on the same day should not be missed. For further particulars see his announcement in another column.

The dreary Baking Powder story still drags its weary length along the columns of our rapid evening contemporary. Stale and ancient as it is it stands out in contrast with the reading matter that surrounds it, like a diamond of the first water set in the top of a Reno tar bucket.

## Tom Fitch's Book.

Tom Fitch and his wife have written a book called "Better Days; or A Millionaire of Tomorrow."

Of course, nothing that the talented people would write could possibly be anything less than brilliant. The book teems with good things. The sentences that scintillate are as thick as mosquitos in Reno.

It is dedicated to the 8,000 millionaires of America, and deals with Jay Gouldism and the big problems of finance and political economy.

It tells of a big mine so rich that to read the story one feels like grabbing a prospector's pick and starting out to hunt the mate to the mine.

Fitch is the man to write such a book, because there is no phase of human nature that he is not familiar with, and no class of people with which he cannot make himself perfectly at home.

You just ought to read it.

## Broke Their Agreement.

ED. APPEAL—On the 17th of last May all the barbers in this city signed an agreement to close on Sunday. All religiously kept their agreement until last Sunday, when Harris and Benenato both kept their shops open while the others were closed.

The balance of the shops are run by men who have some regard for their signatures and still propose to stand by their written agreement.

## Gauzy Yarn from Genoa.

It is now claimed that the elopement of Mrs. Buck Murphy with Pete Millich's manager was a put-up job between Murphy and his wife to raise money.

Buck is said to have raised several hundred dollars from sympathetic friends to start in pursuit, and is now with his wife in Oregon.

He was in Carson yesterday.

## Kismet.

Lamp chimneys are queer things. Yesterday one dropped from a lamp, fell onto the press, bounded up again, and the next fall landed it on a job press, and from there it fell to the floor. It was not broken.

But in the evening it was placed on the lamp again and went to pieces, with no one anywhere near it and the light turned low.

## Departed for Washington.

Last evening Hon. H. F. Bartine departed for Washington, where he will remain during the coming session of Congress. A large crowd of his friends were at the depot to bid him good bye and wish him God speed in his fight for silver in the House of Representatives.

## Teachers' Contest.

THAT IS THE QUESTION,

Can you go to the EMPORIUM and know you will get the worth of your money?

# BECAUSE

## There is no Secret

About your buying shoes to advantage. You may not know any more about the quality of leather than you do about a lost comet but that is no reason why you should get "stuck." Either you get your money's worth or you don't and if you don't is is your own fault. We are in the shoe business because we happen to know something about shoes and leather. It is "bread and butter" to us, therefore we make it a STUDY. Of the knowledge you get as much benefit as though you possessed it yourself for we place it entirely at your disposal and if you think that other houses can quote lower prices than we do, come and look at the goods and and prices. We will put our time against yours and we feel confident that the result will be a mutual benefit.
